ACNEM TRAINING

WOMEN'S
ENDOCRINOLOGY

SYDNEY
24-25 OCTOBER

REGISTER ONLINE NOW AT ACNEM.ORG

This practical two-day course will examine and explore women's hormonal disorders, including thyroid and adrenal health. Our clinical experts will present case studies and current evidence to provide clinical insights and therapeutic recommendations for:

- Postnatal depletion
- An update on Polycystic Ovary Syndrome (PCOS)
- Endometriosis
- Subfertility

Speakers will explain the use of pathology from a nutritional and environmental perspective and the role of nutrition, diet and lifestyle in the treatment of hormonal health disorders.

Requirement: Two days face-to-face + required activities

For more information and to register online visit acnem.org

HIGHLIGHTS

- ✓ World-renowned author and clinician Dr Oscar Serallach will explore Postnatal Depletion Syndrome and its impact on families
- ✓ Highly-regarded fertility naturopath/nutritionist Rhiannon Hardingham will present a practical guide to subfertility in General Practice: 'Subfertility: What to do before referral'
- ✓ Hear from experienced Obstetrician and Gynaecologist Dr Jim Parker on the dysbiosis-based pathogenesis theory of PCOS
- ✓ Case-based learning
