VISIT ACNEM.ORG FOR MORE INFORMATION

MARCH 2020 AUCKLAND, NZ

Foundations of NEM 14 - 15 March

Foundation training in Nutritional and Environmental Medicine.

2 days face-to-face + equivalent of 2 days online + required activities

Exercise for Health & Performance 14 - 15 March

This brand new module will explore the impact of exercise on health as well as outline how nutritional medicine can be used to optimise exercise performance. Our highly experienced and specialised presenters will bring their clinical experience and knowledge to provide you with comprehensive clinical recommendations.

2 days face-to-face + required activities

AUGUST 2020 GOLD COAST, QLD

Foundations of NEM 1 - 2 August

Foundation training in Nutritional and Environmental Medicine.

2 days face-to-face + equivalent of 2 days online + required activities

Chronic Pain 1 - 2 August

Current research and experienced clinicians will provide you with the toolkit you need to understand and manage chronic pain and its associated conditions.

2 days face-to-face + required activities

NOVEMBER 2020 MELBOURNE, VIC

Foundations of NEM 14 - 15 November

Foundation training in Nutritional and Environmental Medicine.

2 days face-to-face + equivalent of 2 days online + required activities

Cardiometabolic Health 14 - 15 November

A comprehensive overview of evidence based NEM therapies for cardiometabolic conditions. This practical workshop will provide clinical tools and therapeutic recommendations.

2 days face-to-face + required activities

Oral Health 14 November

An overview of oral health and the many links to general health. This practical course has been designed to equip practitioners with the skills necessary to identify and assess problems within the oral cavity and will include common treatments.

1 days face-to-face + required activities
